Welcome to our state of the art, ultra secure Data Centre

Because your business deserves the best

As companies become more and more dependent on their IT systems, and the movement towards cloud computing rapidly accelerates, there's an ever-increasing demand for secure and reliable Data Centre capacity.

Zen Internet, the North West's multi award winning ISP and hosting specialists are answering that demand - with a purpose built Data Centre, providing the region's businesses with the service and support they deserve.

£4million investment

- 24/7 manned security & CCTV
- Connected to our resilient high speed network
- 24/7 environmental management
- 100% independently owned

$1350m^2$. And every single square mm monitored 24/7

Maximum security

Data security is ensured 24/7 by automated management systems combined with an onsite central monitoring team, security guards and CCTV - covering every square millimetre of the secure, temperature controlled environment. Enough to support even the most demanding connectivity and bandwidth requirements and to seamlessly serve customers with the very best in IT hosting. Zen are ISO 27001 certified which means that your sensitive data and IT assets are in safe and secure hands.

100% guaranteed connectivity. 100% green commitment

Energy efficient & eco-friendly

The Data Centre incorporates state of the art N+1 power and environmental management infrastructure providing 2MVA capacity. Diesel Rotary Uninterruptible Power Supplies (DRUPS) ensure that incoming mains power is conditioned and available 100% of the time. With 100% guaranteed power, customers can be sure of 100% uptime. Overall DRUPS consume less energy than static battery based systems, reducing the Data Centre's impact on the environment. This is part of a strategic commitment made by Zen as reflected by their ISO 14001:2004 Certifications for Environmental Management Systems. Zen has also been awarded participant status in the EU Code of conduct for Data Centre Energy Efficiency.
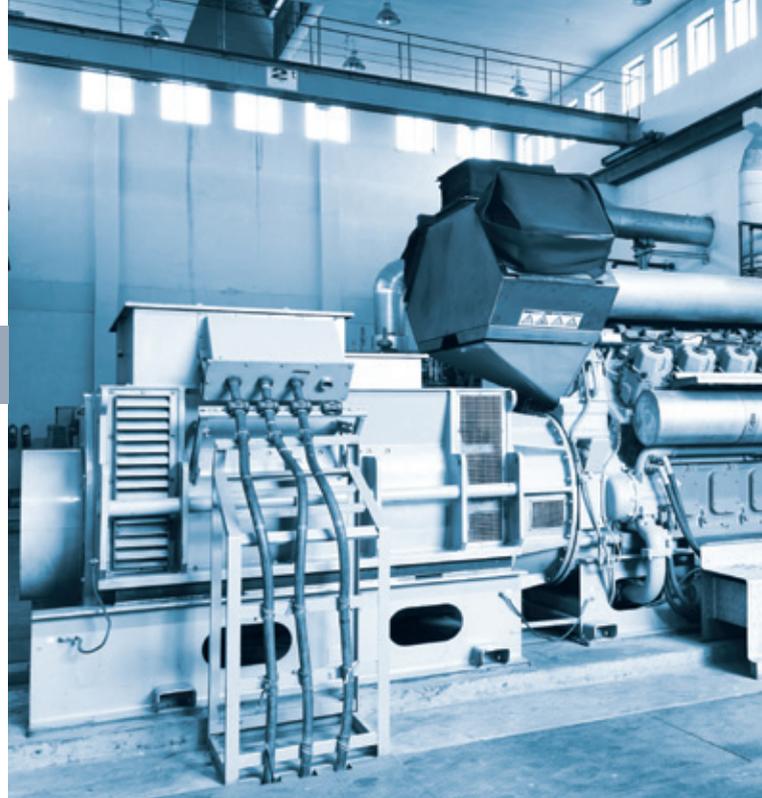

Personal consultation. Bespoke solutions & 24/7 support

Tailored service

Choosing a provider is about finding a partner you can trust completely with your mission critical data and applications. You will discover that Zen can make a real difference by providing you with bespoke solutions based on your specific needs - backed up with round the clock support and the high quality service your business deserves.
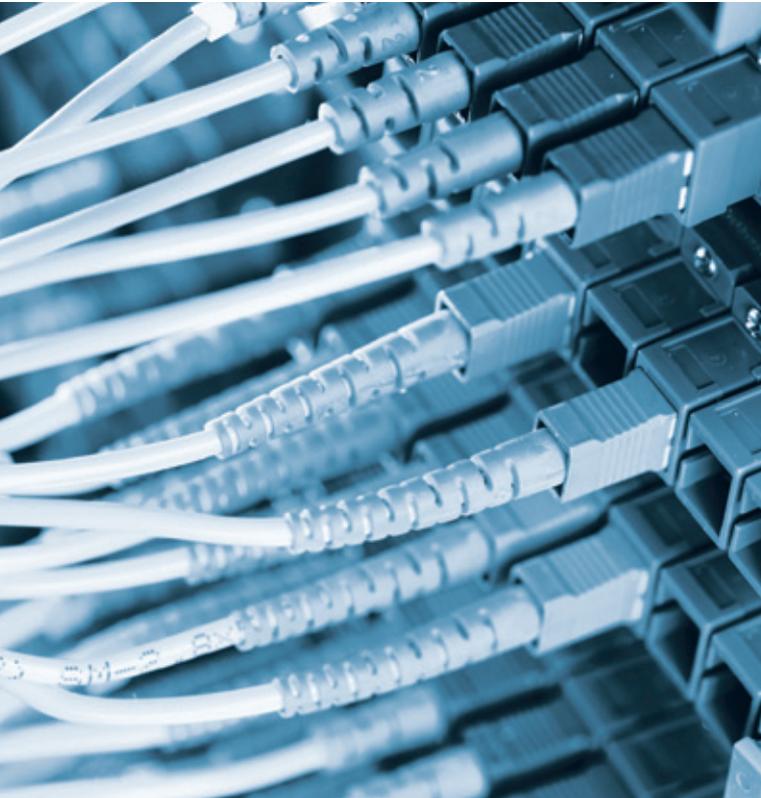

17 years experience in hosting solutions

Specialist knowledge

The new Data Centre provides a full suite of managed hosting, cloud hosting, dedicated servers and colocation services. It is a major step forward in Zen's ongoing commitment to hosting, which they have been providing to our customers for over 17 years and which has attracted a string of awards.

Zen are a 100% independently owned company

Complete independence

Zen is independently owned and led by founder and Managing Director Richard Tang. Zen's independence is strenuously protected, enabling the company to focus on providing the right solutions to businesses, with the freedom to invest in the future. Investment in the Data Centre also demonstrates Zen's ongoing commitment to becoming not just the best ISP in the UK, but the best hosting company too.
