FTTP Priority Exchanges: List of Exchanges where order restrictions will be / are applied

This document provides a list of FTTP priority exchanges where order restrictions have either been notified or have been applied.

Stop sell will apply at a premises level only where that premises has access to an available GEA-FTTP product.

Where a premises has access to GEA-FTTP, stop sell of non GEA-FTTP products will apply and no new supply will be available, including: CP transfers, working line takeovers, addition of broadband to voice lines, bandwidth modify, start of stopped lines or migrations to non GEA-FTTP products.

If a premises has GEA-FTTP available to order then only GEA-FTTP will be available for new supply. As GEA-FTTP becomes available at additional premises post stop sell, these premises will come within scope of the stop sell immediately.

If a premises does not have access to GEA-FTTP, then the following products will still be available: SOGfast, Gfast, SOGEA, GEA-FTTC, and SOTAP (when launched and where no fibre is available). SMPF and WLR3 can also still be ordered until 28 March 2024 where FTTP or SOGEA are not available.

Effective from 5 September 2023, Openreach has applied a UK stop sell policy meaning that WLR products are no longer available for new supply except where an exception has been granted. For information on the exceptions process, please see <https://www.openreach.co.uk/cportal/products/the-all-ip-programme/stopsell-updates>

The associated exceptions process is currently being discussed with industry.

Introduction and handy reading tip

This is an Openreach ancillary document. It contains important information about our plan towards implementing Stop Sell in FTTP priority exchanges which our customers (“you”) need to understand.

As we introduce, or amend the notified FTTP priority exchanges we will make changes to this document in line with the change process for ancillary documents
