

ISDN30

ISDN30 is a digital Voice service enabling essential communications, designed for SME and Large Enterprises, and is established as the preferred method of telephony for businesses.

ISDN30 provides between 8 and 30 channels of crystal clear telephony. This means you have the capability to make or receive between 8 and 30 concurrent calls. As well as high quality Voice communications, ISDN30 can also be used for fast data transfer and video conferencing.

ISDN30 is offered on a 12 month contract, and we do not charge any call connection fees, or insist on any minimum call spend; you simply benefit from our competitive call rates.

It is free to transfer your existing service to Zen, and you benefit from the low channel rental and low call costs 10 working days from your order being confirmed. During the transfer process there is no downtime, and no change to the physical aspects of your service. You are able to make and receive calls as normal, and there will be no changes to your phone numbers.

Zen's excellent Customer Service and Support comes as standard. You can also choose the Premium Care option for 24/7/365 cover, to give you peace of mind that your service is in safe hands.

Key Benefits

- High quality digital Voice service for businesses of all sizes.
- No call connection fees or minimum call charges on any landline or mobile calls. All calls billed per second, and there is no minimum call spend.
- Free transfers, with no service disruption or downtime. There is also no need to change any of your phone numbers.
- Award winning Customer Service and Support, with an option for 24/7/365 support available.
- Always on connections, providing fast and secure communications.
- Direct Dial In numbering, so all staff and departments can be contacted directly.
- Paperless billing as standard. All your calls are shown on the Customer Portal, and you are able to access these 24/7.

Our mission is to provide the best ISP service in the UK.

Richard Tang,
Managing Director

That's Zen thinking

Product Guide

Pricing

We do not insist on any minimum call spend to benefit from these rates. There are no hidden extras, so you will only pay for your service and calls.

All services are offered on a 12 month contract.
